Small Business IT Package

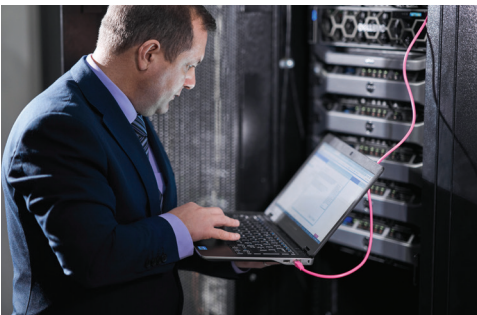

David Allen IT Solutions wants to bring the best of big business IT to small businesses at a small business price point.

Our brand new 'Small Business Package' enables us to take all the expertise, experience, and know-how, plus the support, licences, security and compliance - all the benefits of big business IT and provide them at an affordable fixed monthly fee.

This means you receive the same service, the same level of expertise, the same technologies, the same cost efficiencies as big businesses do - why should you receive any less?

Each package delivers a fully managed IT Department to your business, with the best-in-class technology, for less than you might think.

For businesses with premises, you can also receive high speed internet connection with a leading phone system to complete the package.

Don't delay, speak to a member of our award-winning IT team today
